

TACIO 2025

20-21 JUNE 2025

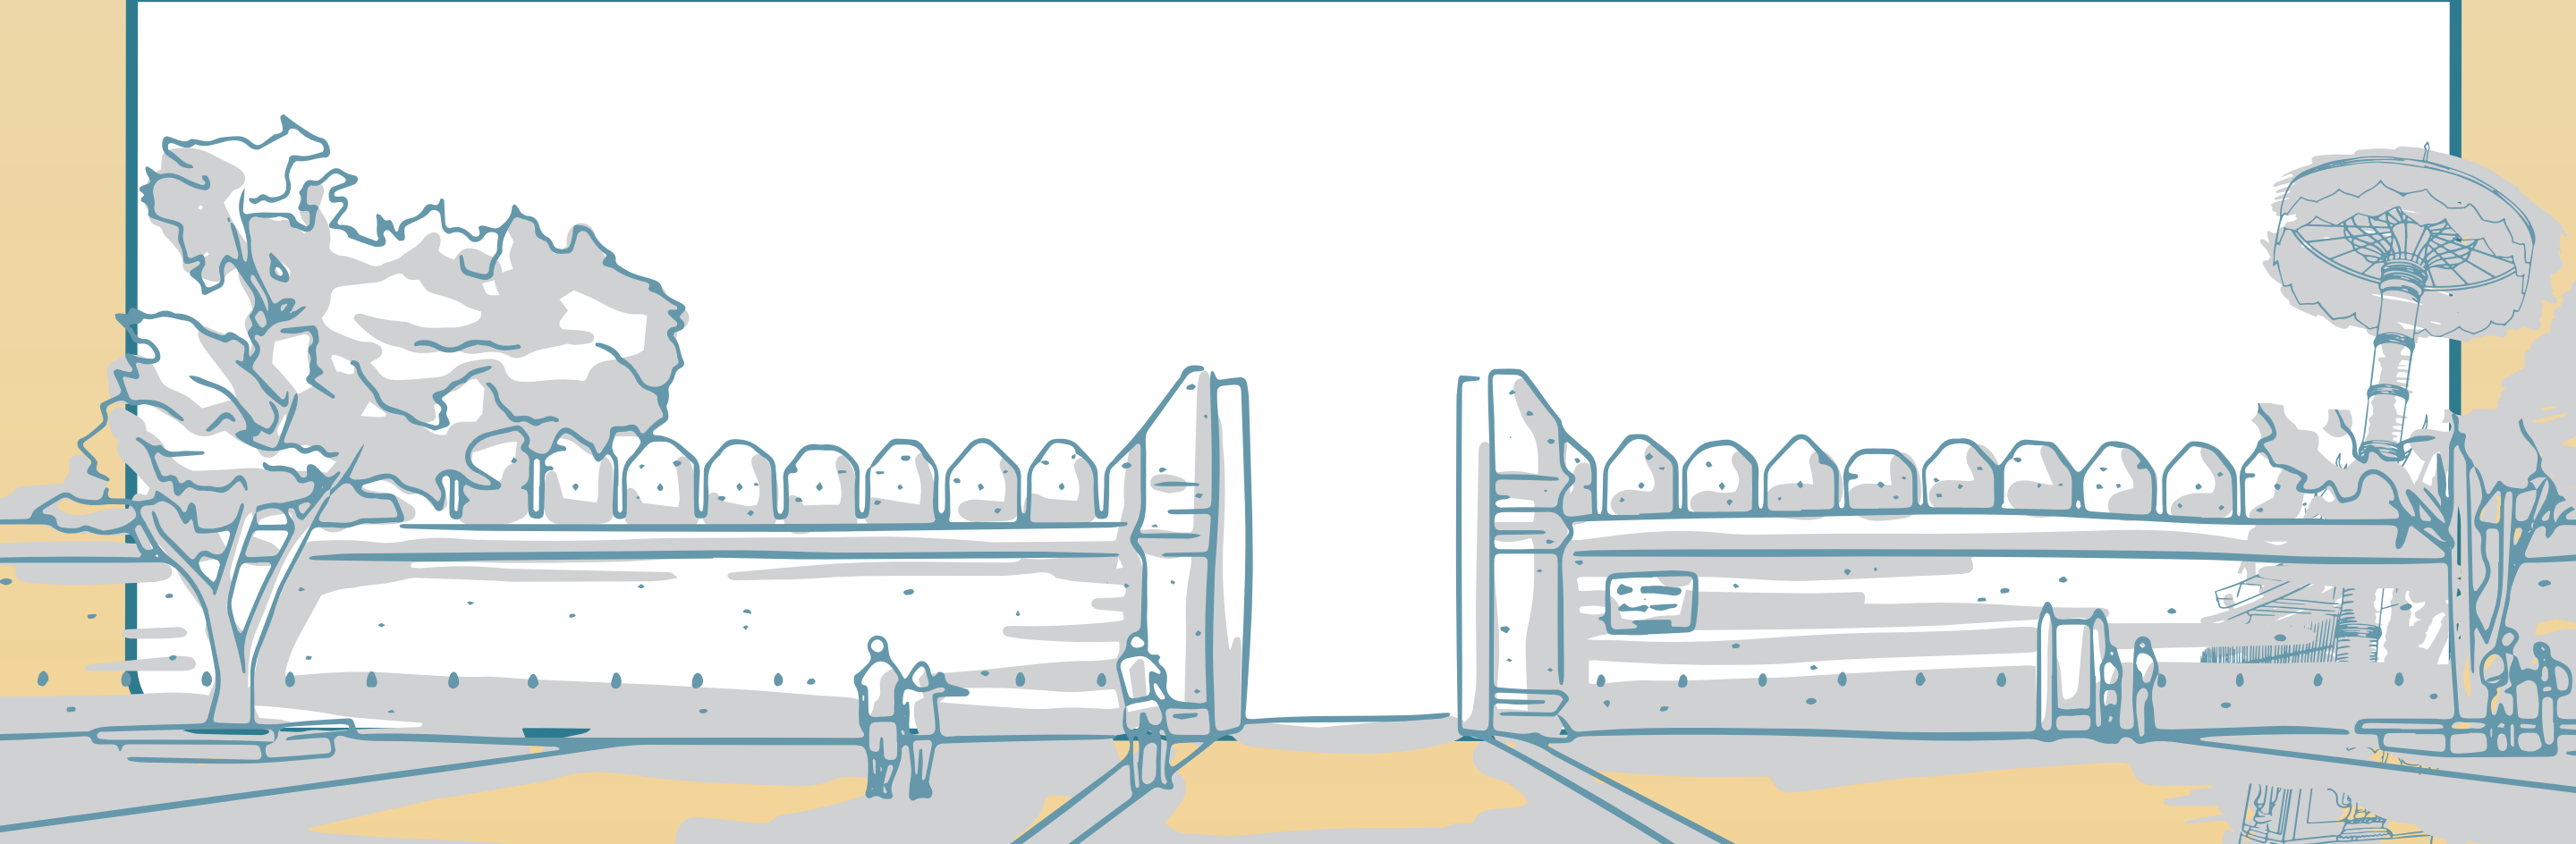

The 5th TSVIR advance
course interventional oncology
@Nimman Convention Centre, Chiang Mai, Thailand

@NIMMAN3 | FLOOR 5

Day 1 Friday 20 Jun 2025

TACIO 2025 From theory to practice

Time	Topics
8:45 – 9:00	Opening Ceremony and Welcome Speech
Session 1: Emerging Technologies in Imaging for intervention oncology	
9:00 – 9:20	Advanced in ultrasound-guided interventions: integration with real-time imaging
9:20 – 9:40	Cone Beam CT for Image-Guided Interventional Oncology: Capabilities and Advancements
9:40 – 10:00	CT-fluoroscopy: Basic set up and clinical application
10:00 – 10:30	Break & Booth Round (1)
Session 2: Miscellaneous IO	
10:30 – 10:50	Cryoablation in Oncology: Cold over Heat
10:50 – 11:10	Histotripsy for Solid Tumors: Mechanisms and Clinical Promise
11:10 – 11:30	Interventional Radiology in Thyroid Cancer: Is There a Place?
11:30 – 11:50	Recurrent and Metastatic Thyroid Cancer: The Role of IR – What, When and How?
11:50 – 12:50	Lunch symposium Maximize Benefit of Locoregional Treatment in Intermediate-Stage HCC
Session 3: Intervention Oncology in HCC	
13:00 – 13:20	Current Surgical Candidates for HCC in the MDT Era
13:20 – 13:40	Toolbox for Liver Tumor Ablation: How to choose?
13:40 – 14:00	Four Decades of Lipiodol TACE: The Enduring Pillar in HCC Therapy
14:00 – 14:20	GMD-cTACE: The Tiny Tool That Transforms TACE
14:20 – 14:40	New Frontier in Y90 Radioembolization
14:40 – 15:10	Break & Booth Round (2)
15:10 – 15:30	DSM-TACE: Rethinking Temporary Embolization for Safety, Flexibility, and Enhanced Patient Outcomes
15:30 – 15:50	DEB-TACE: Why and when do they use Hepasphere in HCC treatment?
15:50 – 16:10	Integrating Radiation Therapy into Multidisciplinary Care for HCC
16:10 – 16:30	Latest update on dual immunotherapy in HCC treatment
16:30 – 17:00	Panel discussion: MDT – HBP vs Onco vs IR vs RT Treatment combination and sequence in HCC

TACIO 2025

20-21 JUNE 2025

The 5th TSVIR advance course interventional oncology
@Nimman Convention Centre, Chiang Mai, Thailand

@NIMMAN3 | FLOOR 5

Day 2 Sat 21 Jun 2025

TACIO 2025 From theory to practice

Time	Topics
Session 4: Intervention oncology in Lung and Kidney	
9:00 – 9:20	Surgical role of lung cancer
9:20 – 9:40	Role of IR in lung cancer : thermal ablation and preoperative localization techniques
9:40 – 10:00	Current evidence of RT in early stage lung cancer
10:00 – 10:20	Role of IR in Renal cancer : thermal ablation (MWA vs Cryoablation)
10:20 – 10:40	Role of surgical treatment in renal cancer
10:40 – 11:10	Break
Session 5: Miscellaneous IO	
11:10 – 11:30	Translating Oncology Evidence into IR Practice: Key Clinical Updates from the Oncologist's Perspective
11:30 – 11:50	Pain management - What anesthesiologists would like IR to know
11:50 – 12:50	Lunch symposium Pearls and pitfall in transradial approach Challenging case sharing
Session 5: Miscellaneous in IO (continue)	
12:50 – 13:10	Liver Augmentation prior to major surgery: from rationale to results
13:10 – 13:30	Optimizing Tissue Preparation: Key Insights for IRs from a Pathologist’s Perspective
Session 6: Intervention Oncology: One Great Case, One Tough Lesson	
13:30 – 14:00	IO impressive case sharing
14:00 – 14:30	IO nightmare case sharing
14:30 – 14:50	Break
14:50 – 15:10	How to set-up IR in non-academic hospital
15:10 – 15:30	Living with an AI
15:30 – 15:50	Oncologic patient journey
15:50 – 16:00	Closing ceremony
